

St Columba's Wilston – Entering and exiting the school site and parking restrictions.

One-way system for traffic flow with entry from Lovedale St and exit to Kedron Brook Road. Please be patient and considerate of other cars also trying to enter the school grounds from both directions on Lovedale St. For cars entering the school site from the outside lane on Lovedale St, please wait for a car from the opposite direction let you in.

This carpark belongs to the O'Shea Centre, and while we share the site with them, we can use it as long as all vehicles are out by 9 am every weekday morning. I have asked that all professional developments at the O'Shea Centre start after 9am to help reduce congestion and optimise parking.

Prep carpark. Care must be taken when exiting, as you are required to join the line of traffic to exit via Kedron Brook Road. Try to use the "[Zipper System](#)", where you let cars in that are waiting to join the queue.

No drive-through or parking around the Church, always. Please respect the parish's request.

Please be very careful when driving through the school grounds. Children can be very unpredictable. Please follow all speed limits and stay off your phone.
